## Inventory of Hazardous Materials Services

Comprehensive, automated solution for end-to-end IHM management

# Complete digital IHM maintenance solution for regulatory compliance

The IHM services specialize in accurate and class-approved preparation of the Inventory of Hazardous Materials (IHM) Part 1 for all vessel types. It also includes automated tracking, real-time updates, and proactive hazardous material management, ensuring vessels meet IMO, Hong Kong Convention IHM, and EU SRR Compliance standards. As a company, we bring in years of experience and approvals from major classification societies, including ABS, DNV, LR, NK, and IRS. Our IHM software for shipowners automates compliance tracking, manages hazardous material updates, and ensures real-time regulatory compliance, and is LR-approved.

## IHM Part 1 preparation services in full compliance with the Hong Kong Convention & EU Ship Recycling Regulation (EU SRR)

- |  |   |  |
|--|---|--|
| ● Visual and physical sampling onboard by qualified HazMat experts             | ● Detailed VSCP preparation aligned with class requirements | ● Laboratory analysis of hazardous materials (asbestos, PCB, ODS, TBT, heavy metals, etc.) |
| ● Material Declaration (MD) & Supplier Declaration of Conformity (SDoC) review | ● Complete IHM Part 1 Report Compilation                    | ● Class Coordination for final approval  |

## End-to-end solution for complete IHM lifecycle maintenance

-  Complete IHM compliance and lifecycle management.
-  Automated IHM maintenance & updates.
-  MD & SDOC collection & verification.
-  Cloud-based IHM software for shipowners.
-  Surveys and onboard inspections.
-  Risk assessments & disposal guidance.
-  Regulatory advisory & audit readiness.

## Industry-leading IHM services with global expertise

Over 860 vessels under IHM management

In-house naval architects and HazMat engineers

Global reach with teams based in India, Turkey, China, UAE & Singapore

Zero non-compliance history across 4+ years of operations

Integration-ready templates for VSCP upload to Class

## Keep fleets risk-free, compliant & audit-ready

- Seamless compliance with IMO, HKC, and EU SRR IHM requirements.
- Avoid PSC detentions, regulatory fines, and delays with records updated in real-time.
- Operational efficiency and fleet-wide control with instantly downloadable compliance reports.
- Source tracking proactively restricts the purchase or onboarding of hazardous components.
- Save time and reduce administrative workload with automated Inventory of Hazardous Materials.
- Eliminate costly last-minute inspections in IHM surveys when selling or scrapping vessels.

# Marine Mechanics' web-based IHM dashboard

**Marine Mechanics** | IHM Maintenance | Home | Priority List | Admin

<b>468,035</b> Purchase Orders	<b>1,355</b> My Pending Tasks - PO Validation	<b>3,770</b> Awaiting MD & SDoC	<b>549</b> Ships Pending Task	<b>29</b> IHM Part 1 - Pending to be Updated	<b>1,950</b> IHM Part 1 - Updated	<b>969</b> Short Closed - PO's	<b>859</b> Total Ships
-----------------------------------	--	------------------------------------	----------------------------------	---	--------------------------------------	-----------------------------------	---------------------------

Clients:

This is the vessel dashboard where you will find the PO's identified as hazardous listed under **"Ship's Pending Task"**.

If the vessel was identified to have Asbestos during initial IHM preparation, the details will be listed under **"Asbestos Removal"** section. For vessels built after 1st July 2002, Asbestos needs to be removed within three years time as per SOLAS.

Vessel is supposed to click on the **"edit tab"** to update the location, quantity used onboard.
