Who can benefit from these solutions?

Fleet Operators

Vessel owners

Ship Managers

Compliance Authorities

Crew Members

Industry-leading products for every maritime need

AlcoVisor

Facial recognition

Ensures secure identification for alcohol testing.

Cloud-based tracking

Real-time, tamper-proof results storage.

Pilot Ladder

Certified construction

Meets SOLAS regulations for safe pilot transfers.

Anti-slip design

Durable, secure ladder steps for stable boarding.

Cargo Hold Cleaning

Advanced machinery

Uses industrial-grade equipment for fast and efficient cleaning.

Formulated chemical products

Efficient and effective products for chemical cleaning operations.

PPE

Certified gear

Meets international safety standards for crew protection.

Durability

High-quality materials that stand up to marine environments.

Powering safe, efficient, and compliant maritime operations

AlcoVisor

Improved crew safety

Prevents alcohol-related incidents with secure, real-time testing.

Regulatory compliance

Ensures adherence to global safety standards.

Pilot Ladder

Regulatory compliance

Fully compliant with IMO and SOLAS standards.

Enhanced safety

Reduces the risk of accidents during pilot transfers.

Cargo Hold Cleaning

Operational efficiency

Reduces port turnaround times with quick, effective cleaning.

Regulatory compliance

Ensures hygiene and safety compliance in cargo holds.

PPE

Crew protection

Ensures safety through durable, reliable protective gear.

Comfort & fit

Comfort-focused designs for long-term use in harsh environments protective gear.
